

## THE THEATRES COOPERATE

Much praise is due Edward Kuster of the Golden Bough Players and the leaders of the Forest Theatre group for the cooperation in dates for the summer openings. Two show houses running at once and each with an excellent production, makes it difficult for the drama lovers to choose. This summer the Forest Theatre will open with "Going Some" July 4th for a 4-day run, and Kuster's "Counsellor-at-Law" begins July 6, extending through the 7th this week and will be heard again next week, the 13th and 14th. Mr. Kuster figures there are enough people in Carmel to fill both houses at all performances. Both "Going Some" and "Counsellor-at-Law" are receiving highest praise from those who have seen the rehearsals.

## MORE SPEED

Chief of the State Highway patrol has instructed traffic officers to arrest all "slow moving" drivers on the highway, since the records show that "poky" drivers are a menace and the cause of great many accidents. It is an excellent and possibly necessary regulation. Yet the fact that every one is now being compelled to hurtle along at speeds that a few years ago were attained only by "dare devils" on race tracks is rather a tragic situation of the age in which we are living. Where are we all going at this terrific pace that grows increasingly swift?

What are we going to do with the minutes and seconds we gain? Where is it going to end? It is not at all improbable that in another twenty years the 45-miles an hour speed of today will be so slow as to be a menace to traffic traveling 100 miles an hour.

Why not consider the laws of other states that provide no fixed speed limits and insist that the driver of a car must operate it with reasonable caution. California, with its particularly fine roads and the curious characteristic of "speed" in everything, might do better to compel people to "go slow" and enjoy some of its unique and diversified scenery.

## MRS. SARAH E. WHITE COUNTY SUPERINTENDENT

Friends of Mrs. Sarah E. White are enthusiastic in their praise of her ability to serve as County Superintendent of Schools. She has spent the greater part of her life in school work and public service of one kind or another which gives her much of the necessary qualifications. The office of County Superintendent is one of the few, if not the only county office, that is particularly suited to woman's ability and the voter will do well to consider Mr. White. One of the old timers, in speaking of Mrs. White's candidacy, remarked, "Many will remember how she took especial pains with backward children when she was principal here and they can look about them now and see some of those same youngsters grown up and doing well in the business world. She is bright and wide awake and has kept up with the progress of time. I am for Mrs. White not because she needs the office, but because she is efficient."

## MORE CODE STUPIDITY

If governmental meddling and regulation is such a fine thing why doesn't the government observe it?

The latest piece of stupidity is a ruling by Gen. Johnson permitting suspension of code prices from anyone bidding on government purchases. Beat that one, will you.

And the government fixes the price of all envelopes and compels proprietors to raise wages and shorten the hours of printers making the envelopes. BUT after cutting the wages of all government employees it WILL PRINT envelopes at about half the price it demands that the local printer charge.

## THE LIBRARY QUESTION

It seems to us that one of the most difficult things in Carmel toward getting down to real facts is the "My Carmel, right or wrong" attitude. We have our library. It is the finest library on earth for a city of this size. It circulates more books per capita than any library of its size. These things all acknowledge and take pride in.

But WHY should we close our eyes to the fact that most any business, yours, ours, municipal, state, etc., can be made more efficient by watching the corners? Perhaps it will be found that 9 cents per book is the very least a book can be handled for, but that is no reason why the costs should not be fully investigated.

Just to cut down the money for the library would be foolish, for no one wants to cripple the service, but to investigate thoroughly and see whether the expenses could be cut without hurt-

## CALISTA ROGERS SONG

## SERIES BEGINS JULY 13

The Song Series by Calista Rogers, soprano, with Ralph Linsley at the piano, which the Denny-Watrous Gallery is presenting on three Friday evenings July 13, July 27 and August 10, opens up a field of beautiful, rare songs which few people have opportunity to hear even in large cities.

It is for this reason that recitals by Calista Rogers, whose song repertoire is one of the most comprehensive among singers, have attracted the most serious attention and response in London, New York, Los Angeles, San Francisco, etc.

The first program on Friday, July 13, will begin with two songs of the troubadours of the twelfth and thirteenth centuries. Then will follow examples of the Spanish and English lute players of the sixteenth century. In this group will be sung that famous medieval ballad, "Fons Frida," (Cool Fountain.)

The third group will feature Italian songs of the seventeenth and eighteenth centuries. Pergolesi, Caldara, Lagrenzi and Scarlatti, who wrote songs of exquisite beauty will be represented by some of the finest things written during their period.

The final group will be taken from Bach, Haydn and Mozart, whose works are in the more formal and stately. Mrs. Rogers' second and third programs will feature Schubert lieder and more modern works. Season tickets and students' tickets may be secured by telephoning Denny-Watrous Gallery.

## BARBECUE NEXT SUNDAY

## BENEFIT SERRA FIESTA

Don't forget the big barbecue to be held at Indian Village next Sunday as a benefit for the coming Serra Festival. A lot of different things have been planned for entertainment, chief among which will be the fights, featuring Carmel's own scrappers, Frank and Bob Dalton.

Admission price is \$1.00 and this entitles you to food, fight and fun!

The pageant committee must have funds before it can go ahead with preliminary arrangements and this is your chance to help out and enjoy yourself at the same time.

ing the library would be nothing but good common sense and business. With the cost of handling each book being 9 cents, it is of the utmost importance that every precaution should be used to see that no one chisels off the taxpayers.

Carmel wants everyone to enjoy her fine library, but there are rules of fairness which have been adopted for non-residents, and these rules should be adhered to strictly.

## HOW MUCH WILL THE AMERICAN PUBLIC STAND?

News dispatches carry the interesting information that a horde of "brain trusters," big and little, will tour the country this summer at the expense of the taxpayers under the thin guise that the speeches and addresses so made will be educational on the New Deal. Even the most stupid know that any addresses made by office-holding politicians are going to be political speeches pure and simple.

The public is used to New Deal methods—the taxpayer can almost believe that we are on the crest of a wave of prosperity when we are only some billions of dollars WORSE OFF than when the "brain trusters" took the helm. The money borrowed from the taxpayers is to be used in part to try to convince the public that the rapidly collapsing New Deal is really a great and wonderful thing.

But it is going to be increasingly hard to convince people who are losing their businesses, their homes, their jobs and everything they have gained by sensible methods that the New Deal is anything but a Rotten Deal from a deck prepared and marked by the big interests.

## RUSSELL W. GILES FOR COUNTY TREASURER

Russell W. Giles of Pacific Grove is another Peninsula man that is making a clean, hard fight for office—that of County Treasurer. The fact that he is a peninsula man is going to have no little influence with the voters in this part of the county. While it is still a matter of conjecture who will be elected, Mr. Giles is making a lot of friends and his long years of semi-official public service in Pacific Grove gives him a running start.

## PROGRAM FOR FESTIVAL

## NOW BEING PLANNED

Although all details have not as yet been worked out, the main features for the Serra Fiesta to be held here August 24th to 28th in memory of the death of Father Serra at Carmel Mission 150 years ago, have been planned.

The committee is devoting many hours to the affair and is realizing the magnitude of the task. It is estimated that thousands will crowd the peninsula at that time and the housing difficulty is also one that has to be met.

It is reasonable to expect that of all the fiestas and pageants being held this year in California, Carmel's will be the most attractive to guests, this being the home of Father Serra and Carmel Mission having been built under his direction not taking into consideration Carmel's natural attraction to vacationists.

The following plans have been made, in which it will be noted that the pageant will be seen each night of the celebration:

FRIDAY, AUG. 24 — Night Pageant.

SATURDAY, AUG. 25 — Band concert. Public reception and speaking. Rodeo, Pageant, Street Dance.

SUNDAY, AUG. 26 — Historic Cavalcade and Parade, Pontifical High Mass, Band Concert Barbecue and Fiesta events. Rodeo, Pageant.

MONDAY, AUG. 27 — Pontifical High Military Mass. Band Concert, Fiesta events, Pageant.

TUESDAY, AUG. 28 — Pontifical Requiem High Mass, Fiesta events. Benediction Services at hour of Father Serra's death. Pageant.

## PACIFIC GROVE YOUTH

## IGNORANT OF LAW

John Martin, Pacific Grove young man, was probably ignorant of the state law against allowing so great a number to sit in the front seat of a car as to obstruct the driver's view, for he appeared on Carmel streets with his car filled to capacity.

When Officer Charles Guth signalled him to stop, he stepped on the gas instead, and in lieu of the friendly notice he would have gotten received a summons to appear before Judge Wood.

He is to come up for hearing this (Thursday) morning.

## CHARLES ORSON HORTON

## WILL COME HERE AGAIN

People of this section who are interested in learning water color work will be glad to learn that Charles Orson Horton who has just finished a twelve-lesson term here under university extension will return in two weeks to conduct another class.

Mr. Horton was called to Oakland for two weeks on business and those who are interested will please telephone 70 or call at the Sun office at once.

The course consists of twelve three-hour lessons at \$12 for the course.

Mr. Horton has been teaching art in the university for the past three years and his work is among the best known in the state.

In order to get university credits there must be a minimum number of ten in the class.

Mr. Horton has exhibited in the Grand Central Gallery of New York; the Minneapolis Art Museum; all San Francisco galleries; the Los Angeles Art Museum and the Gallery Casa de Manana of Berkeley as well as in many others. He recently exhibited in the Denny-Watrous gallery and in the Carmel Art gallery.

## CARMEL YOUNG MAN

## TO WED JULY 14TH

The wedding of John Van Saltza of this city and Miss Betty Joyce has been set for July 14 and will take place at the home of the bride in Oakland.

Karl Von Saltza, a member of the "Going Some" cast, will be best man for the groom, who is his brother.

The newlyweds will spend the summer months in Carmel and in the fall will go to Palo Alto where Mr. Von Saltza will take a post graduate course at Stanford.

## CARMELITES NOTIFIED

## NO CRACKERS IN LIMITS

Placards were posted in Carmel this week that violators of the city ordinance prohibiting the shooting of fireworks here, except on the beach, would be fined \$100.

This restriction is made on account of fire hazards and is in no way meant to mar enjoyment.

## RUSSIAN TEA ROOM TO

## DISCONTINUE DINNERS

In order that more time may be given to perfect luncheons, teas and bridge party service, the Russian Tea Room in Monterey will discontinue serving dinners after Thursday.

Colonel Jadovskoy is associated in The Tavern on Alvarado and Mrs. Jadovskoy has full charge of the tea room and under this regime she finds her time too fully occupied for dinners.

The Russian Tea Room makes an excellent place for Carmel people to rest and refresh themselves when in Monterey.

## TUESDAY NIGHT SEES

## SECOND NUMBER SERIES

Music lovers are looking forward to next Tuesday night which will see the second number of the summer series of the Carmel Music Society, held at Sunset school auditorium.

The Penha Piano Quartet will furnish the entertainment. And what a feast of music it will be, as you will note by the following program, which will be offered:

Loeillet—Quartet for piano, violin, viola and cello.

Beethoven—A Trio for violin, viola and cello.

Saint Saens—Quartet for piano, violin, viola and cello.

Added to the pleasure of hearing this quartet because the music is excellent, is the pleasure of feeling that the quartet is Carmel's own. These men are spending the summer here, and Mr. Penha himself has made his home here the year round for some time.

Carmel has claimed Mr. Weiss and Mr. Linsley for a long time and is fast taking Theodore Norman, the new member into the fold.

Although an unusual number of season tickets have been sold there are still good seats which may be had, but it would be better not to delay too long in having yours laid away. Next Tuesday night, July 10 at 8:30.

## MAN TURNS CAR IN

## MIDDLE OF BLOCK

Because he turned his car in the middle of the block on San Carlos between Ocean and Sixth Jurgens Ross of Pebble Beach was brought before Judge Wood.

When it was found that Ross had no driver's license, Judge Wood continued the case till the 30th at which time the offender is supposed to show that he has applied for his license.

## COUNCILMAN BURGE ASKS

## CITIZENS' COOPERATION

If Carmel people will cooperate with the street department this city may have its streets cleaned twice each week, according to Councilman J. A. Burge, commissioner of streets.

Mr. Burge says he has been approached by a great number of people who ask that the streets be cleaned more often and that he is willing to accede to their requests if the people themselves will refrain from throwing things in the streets, making unnecessary work for the department.

Most things that litter the streets are cast away thoughtlessly and it is to be hoped that Commissioner Burge will receive cooperation hereafter.

Two Carmel lads were taken before Judge Wood Tuesday morning charged with shooting firecrackers in the city limits. After a good lecture by the judge, they were allowed to return home.

## CARMEL YOUNG LADY

## MAKES GOOD MINER

When she was on her vacation last week with her sister and brother-in-law, Mr. and Mrs. Rawson of Monterey, Miss Margaret Swedburg took up placer mining in the Yuba river at a point near where the first gold was found in '49.

After four pans, Miss Swedburg had her gleamings smelted and now is very proud of her capital, about one dollar's worth of pure gold which she keeps locked up in a perfume bottle. Her many friends fear very much that she has contracted "gold fever," and may leave any time to take up the occupation permanently.

## SUNSET SCHOOL STANDS

## WELL IN NEW LINES

Principal Bardarson, home from an interesting week spent at Stanford where he attended Education Week, reports that besides the several hundred teachers present from all over the state, there were educators from adjoining states, chief among whom was the superintendent of Seattle Schools.

"I was pleased to note that the Sunset program is right in line with the progressive proposals made at the conference," said Mr. Bardarson.

Among the most interesting things, Mr. Bardarson said, was the panel discussion in which the speakers and audience exchanged views, presenting all the features in favor and against certain proposals.

## SANITARY BOARD WILL

## OPERATE UNDER 1928 ACT

At the next election held by the Carmel Sanitary district, the names of candidates for office may be placed on the ballot with the reorganization of the board from the 1898 act to the act of 1928.

At the last election voters here did not understand why it was necessary to write in the names of candidates but since the 1898 act contained no provisions for nomination, this was the only way it could be handled.

## ROMANCE OF COLORED

## COUPLE MADE KNOWN

When Mildred Louise Burch, 16-year-old mulatto of Pasadena left a note for her mother informing her she had gone to Carmel to marry Louis Bares, her mother through Pasadena police notified Chief of Police Gus England her description and told him to arrest her.

Gus, true to his reputation, "got his gal," and the wedding was all off until the mother arrived very emphatic as to her unwillingness to allow the marriage.

Arguments, however, must have won the irate mother over for word came to Carmel Monday from Salinas that the couple had been wed. The groom is 22 years of age.

## SAVE 10% — Install Gas Heating this month

THE accepted mode today in house heating is to burn Natural Gas. Natural Gas is the cleanest fuel to use and requires no handling. With modern gas heating equipment Natural Gas burns silently, is controlled mechanically with no labor or care.

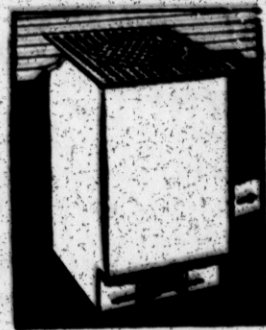

Look over the gas heating devices pictured below. Read how each serves particular heating needs and home conditions. Check them over and decide now to guard against cold weather ills caused by uneven room temperatures. To convince yourself thoroughly, ask your neighbor; he probably enjoys Natural Gas heating.

You owe it to yourself and your family to make the change now to Natural Gas heating, especially while a substantial discount on gas heating equipment is still in effect. Terms could not be more adaptable to your family budget. Let us explain without obligation how easily this permanent home improvement can be accomplished.

You can purchase any one of the gas heating devices shown here this month with a small down payment and at a discount of 10% on both the cost of the equipment and installation, exclusive of fuel. Monthly payments are deferred until October 1st. Act now on this Summer Discount and save money.

### The Radiantfire

For a cheerful fireplace that always stays clean, install a Radiantfire. Made in many sizes and styles. Beautiful, efficient and inexpensive to buy and operate.

### Floor Furnace

Solves the heating problem for homes without a basement. Highly praised by thousands. Saves floor space and is easy and most economical to install and operate.

### THOUGHT BEACH GARBAGE CANS FOR PUBLIC USE

A family of summer visitors were brought before Judge Wood Monday morning charged with emptying their garbage in the cans at the beach provided for keeping the beach clean. In her defense the lady stated that since her landlord had provided no garbage can she thought the city had thoughtfully provided for garbage disposal at the beach.

Judge Wood informed the offenders that the sign, "We love our beach and ask you to help us keep it clean," means just what it says.

This year has seen an unusually large number of offenders of this law. Whereas heretofore it has been necessary for the collector to go to the beach and empty the incinerator but about once a month, he has had to be called at least once a week this summer and the flies constantly buzz around the discarded food. Although Mr. Rossi, the collector, has made no complaint, this service is free to the city and the officials do not like to impose on his good nature.

Future offenders will no doubt receive more than a reprimand for despoiling the beach.

### CHRISTIAN SCIENCE CHURCHES

In all Christian Science churches, branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, July 8, on the subject "Sacrament."

The Golden Text will be: "The bread of God is he which cometh down from heaven, and giveth life unto the world" (John 6:33). Bible selections will include the following passage from Luke 22:15-18, "And he said unto them, With desire I have desired to eat this passover with you before I suffer: For I say unto you, I will not any more eat thereof, until it be fulfilled in the kingdom of God. And he took the cup, and gave thanks, and said, Take this, and divide it among yourselves: For I say unto you, I will not drink of the fruit of the vine, until the kingdom of God shall come."

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included which reads as follows: "The disciples had eaten, yet Jesus prayed and gave them bread. This would have been foolish in a literal sense; but in its spiritual signification, it was natural and beautiful. Jesus prayed; he withdrew from the material senses to refresh his heart with brighter, with spiritual views" (p. 32).

### MUST GET CLAIM

#### FROM CWA AT ONCE

The deadline for filing financial claims against CWA in California is July 15th.

The administrator's statement follows:

"Pursuant to instructions from Washington, D. C., the business of the Civil Works Administration, state of California, will be definitely closed out July 15, 1934.

"Any and all creditors, vendors, lessors, or any person having monies due and owing from the Civil Works Administration shall be required to make demand for same in due form on or before the date mentioned."

### CIVIL SERVICE

#### EXAMINATIONS

The United States Civil Service commission has announced open competitive examinations as follows:

Junior agricultural statistician. Associate veterinarian (diseases affecting wild animal life).

Full information may be obtained from F. J. Mylar at the postoffice.

Charlotte Cole, Katherine Brehm, Mary Haas and Barbara Strodt, all of Seattle, students at the University of Washington, after spending a week in the Terry cottage, have returned to their homes.

### FIRESTONE COMPANY SALES INCREASE

Harvey S. Firestone, chairman of the Firestone Tire & Rubber Co., made the following announcement:

Operations of the parent and all subsidiary companies, including Firestone service stores, for the six months ending April 30, 1934, after deducting depreciation, interest, Liberian development expenditures and federal taxes, resulted in a profit of \$1,521,745. This compares with a loss of \$1,576,000 for the same period last year.

During the past year we increased our wages 30 per cent. As published by the National Industrial conference board in their May bulletin, the rubber industry pays the highest rate of wages of any industry not requiring apprentice period as illustrated below.

Lumber industry	47.1c
Agricultural implements	58.9c
Steel industry	60.2c
Automobile	68.1c
Rubber	76.1c

The average for all industries is 56.1 cents.

The wages in the rubber industry are now higher than they were in the peak of 1929.

During the first six months, our Akron payrolls showed an increase of 103 per cent compared with the same period last year, our employment records show an

increase of 53 per cent, or over 4000 additional people on the payroll as against a year ago.

During the depression the rubber industry operated below 45 per cent of capacity compared with 1929 production, while the steel industry operated as low as 16 per cent.

Our dollar sales for the six months period show an increase of 58 per cent compared with the same period last year.

### Animal Like Duck

The platypus, or the duckbill, of Australia, is an animal even though it has a bill like a duck and lays eggs to hatch its young. It possesses fur and not feathers and cannot fly, and can hardly run. Its normal body temperature is lower than any other warm-blooded animal. It is a real freak and belongs to the past ages.

#### DID THEY LIKE IT?

When the Ringling Bros. & Barnum and Bailey circus showed in Washington, D. C., recently, N. Y. Variety says, it attracted nearly all the legislators there. One objectionable feature to them was the government admission tax.

Handing out the free passes to prominent officials, John Kelly, the Ringling general manager,

made certain that members of congress responsible for tax laws were on the free list, but emphasized the importance of the ten per cent tariff by writing on the back of the "Annie Oakleys" (Free passes), "Be sure this guy pays the tax."

Subscribe for Carmel Sun today.

#### HATFIELD FAVORS STATE CIVIL SERVICE

Sacramento, June 28.—Strong endorsement of the constitutional amendment which will be submitted to California voters at the general election, providing for a non-partisan state personnel board and the strengthening of

civil service, was made here today by George J. Hatfield, former United States attorney for Northern California for lieutenant governor.

"This amendment," said Hatfield, "will extend civil service to more than 5000 state employees now in exempt positions and will be a strong factor in promoting efficiency and economy in state government."

"The 'political spoils system,' wherever it flourishes in government, makes for waste and extravagance. The amendment, which will be submitted to California voters this year, is designed to replace the political patronage system with a system of merit and efficiency. I especially favor the state personnel board of five members, appointed for long terms, with the terms so 'staggered' that no governor can secure control of the board during a single term of office. This set up will attract high-type men to the personnel board and make possible the non-partisan administration of civil service which is absolutely essential for the protection of both the employee and the public."

#### Benedictine Liqueur

Benedictine liqueur is distilled in Fecamp, France. Originally it was made by the Benedictine monks, but it is now prepared by a secular company. The formula is a trade secret, but among the ingredients are believed to be cardamom seeds, anise flowers, angelica root, lemon peel, thyme, nutmegs, cassia, hyssop, pepper and cloves.

#### One English Pope

There never was an Irish pope, but there was one Englishman, and there have been a good many of other nationalities than Italian. The English pope was Adrian IV. He was born Nicholas Breakspere, about the year 1100, near St. Albans, Herefordshire. He was raised to the papal see in 1154, and died in 1159.

#### Community Coffin

It was not uncommon, particularly in poor communities, to bury the dead without individual coffins, the bodies being placed in the ground in simple winding sheets. In such cases a sort of bier, to transport a body, was used and returned to the church to be used again as circumstances demanded.

#### "Sahara," Correct

"Sahara" is the Arabic word for "Great Desert" and "Sahara desert" therefore is incorrect. Simply "the Sahara" is all that is necessary. Likewise one should say simply Victoria nyanza or Lake Victoria, for "Nyanza" is a native African word meaning lake.

#### R. R. Engine on Stamps

A square 3-cent stamp was issued in 1890 bearing a picture of the old-style woodburner and an oblong 2-cent stamp was issued for the Pan-American celebration in 1901 with the picture of a modern locomotive of that period.

#### Trees Shrink and Stretch

During clear days of the growing period tree-trunks shrink in the daytime and expand at night. It is all caused by the sun drawing moisture from the tree during clear days. On wet days, there is no shrinkage.

#### Film "Play Books" in China

The Supreme court of China has ruled that motion pictures are photographs of artistic works, and that since the pictures have been taken and made into plays, they should be considered as books of plays.

#### Intensified Vision

Optical vision is intensified through the stimulation of the other senses by sounds, pains and odors. For example, the smell of citronella oil temporarily enhances vision.—Collier's Weekly.

#### German Pension Tests Strict

Applicants for German pensions on the score of physical disability undergo careful tests. A machine is used to measure the pooled vital activity on the entire body.

#### Hear the Lion Roar

A bronze lion, 12 feet high, which roars at noon, and a cock, six feet high, which crows at sunrise and sunset, are features of a huge clock in Messina, Sicily.

#### Balkal Deepest Fresh Water Lake

Lake Balkal, in Siberia, is said to be the deepest fresh water lake in the world.

#### Do What Is Right

If resolutely, people do what is right, in time they come to like doing it.

#### Boy Scout Movement

The Boy Scout movement came out of the British South African war.

#### Chinese, Egyptians and Persians Loved Flowers

China shows the earliest record of the use of plants and flowers for decoration. Flowers and religion are all closely united in their early history, so the Chinese used to offer flowers as presents to their gods and to the departed relatives they worshiped as part of their religion. The way these facts are determined is by the paintings on old tapestries, vases, and pottery which symbolized the actions of the people. The predominating flower in the early history was undoubtedly the peony, as it is found depicted on nearly all the works of art.

In Egypt, also, the history of flowers was closely bound to that of religion, for here, too, the people placed flowers on the altars and made certain flowers sacred to certain deities. The part that plants played is learned more easily than from Chinese history because the Egyptians clearly depicted their thoughts.

Although the use of plants in Persia was largely influenced by the Chinese and Egyptians, the Persians still maintained a distinct character. The hanging gardens of Babylon may have constituted the most famous piece of landscape work of ancient times; this so-called wonder of the world was accomplished by terracing a steep hillside; the ultimate effect was that of many gardens hanging on the hillside. As Persia is a hot, sandy country, their decorative plantings had three main features in landscape design: water, trees, and grass. With them, flowers and color were relatively unimportant.

#### Faustin Elie Soulouque

#### Ruled Haitian Republic

Faustin Elie Soulouque, who reigned as Faustin I from 1849 to 1859, was a full-blooded negro. He was elected president of the Haitian republic by military politicians who believed he would be a pliable tool. He was sixty-three years old, and though he bore the title of general he was a man of no prominence. Shortly after his election Soulouque amazed his sponsors by manifesting entire independence, and then surprised the world by formally proclaiming himself emperor and providing a gorgeous and extravagant coronation for himself and his wife, "the Empress Adeline."

Soulouque was a man of meager ability and was decisively defeated in two wars against the neighboring republic of Santo Domingo. After he was dethroned in 1859 and exiled to Jamaica the republic was re-established. Soulouque was eventually permitted to return to Haiti to die.

The first emperor of Haiti was Jean Jacques Dessalines, who was born an African savage and brought to Haiti as a slave. He completed the liberation of Haiti begun by Toussaint l'Ouverture and reigned as Emperor Jacques I from 1804 to 1806. The only other Haitian monarch was the much abler Henri Christophe who scorned the imperial title and ruled despotically but beneficially as king.

#### Buckwheat Traced 2,000 Years

Buckwheat cakes, good old stand-by of the breakfast and luncheon table, generally regarded to be as 100 per cent American and native as anything could be, are, it turns out, actually an ancient Tibetan dish. Researches in connection with the early history, origin and distribution of the world's cultivated and useful plants, trace buckwheat back to Asia and indicate that it was first cultivated for at least 2,000 years. The Tibetans and other mountain tribes related to them, living in the Himalaya region, were the original buckwheat cultivators and the first buckwheat cake eaters. They produced a complete buckwheat culture complex, grinding the buckwheat into flour, and making the flour into cakes, gruel and beer. They even utilized the straw of the plant as fodder in the winter. Among some of these hill tribes buckwheat still forms the principal crop and the staff of life.

#### Where Gold Was First Found

It is probable that gold was the first metal to attract the attention of prehistoric man, but it could hardly have been used for ornaments until the art of melting had been invented in the Bronze age. The earliest mining work of which traces remain was on gold ores in Egypt, and gold washing is depicted on monuments of the Fourth Dynasty (2500 B. C.). There are many other records of work on gold in ancient times. The legend of the Golden Fleece, stripped of its heroic dress, describes an expedition about 1200 B. C. to seize gold which was being laboriously washed out from the river sands with the aid of sheepskins by the long-suffering people of Armenia.

#### Shoot Shooting

Shoot shooting is a form of clay-pigeon shooting. It simulates, as nearly as possible actual field-shooting conditions. It consists of a field in which two trap houses, one high and the other, are located at a distance of 40 yards apart. From these the clay pigeons are thrown. There are eight stations at which each of the five contestants comprising a team shoot successfully.

The Monterey Peninsula Orchestra, Michel Penha conductor, is rehearsing regularly on Thursday and Sunday evenings in the Denny-Watrous Gallery, from 8 to 10 o'clock. Mr. Penha has the program for the August concert in rehearsal, and Mendelssohn's "Italian Symphony," the Mozart "Double Concerto," for violin and viola, or Massenet's Overture to "Phedre" may be heard by the Innocent Box Holder as he goes

for his mail of an evening. Mr. Penha rehearses the A Cappella Chorus on Wednesday evenings. The latter is closed to auditors.

Miss Helene Elacher, who has been with the Carmel Land company for some time, has gone to Del Monte where she has a position as secretary to Carl Stanley, manager of the Hotel Del Monte.

## LIBRARY BOARD GIVES FULL ANNUAL REPORT

The following report from the  
library board is offered for  
those who have time and energy  
to sit down and figure it all out.  
It will readily be seen that the  
number of books per borrower  
is 38; with cost per book being  
9 cents making a total of \$3.42  
for each reader per year.

**Book Collection**  
Number of books in the libra-  
ry July 1, 1933, 13,778.  
Added by purchase: Adult,  
519; juvenile, 246—765. Add-  
ed by gift: Adult, 227; juvenile,  
16243. Total, 14,786.  
Withdrawn—Lost, 26; discard-  
ed, 95—121. July 1, 1934—14-  
665.

Number of books rebound,  
276; number of books mended,  
294.

Periodicals—Paid subscrip-  
tions, 89; gift subscriptions, 19;  
newspapers, 8.

Borrowers—Permanent; 2489  
registrations from Jan. 1931, to  
Dec., 1933.

2175 numbers cancelled to July  
1, 1934.

314 old numbers left in file  
which will expire between July  
1, 1934, and Jan. 1, 1935.

1325 new numbers used from  
Jan. 1, 1934, to July 1, 1934.

Total, 2239.

86 numbers dropped as dupli-  
cate fees County cards, etc.

2153 active numbers in file  
July 1, 1934.

34 fee cards.

5 County cards.

157 Temporary cards added  
during 1933-34.

186 Temporary cards dropped  
during 1933-34.

168 Temporary cards July 1,  
1934.

41 Old cards removed never  
refunded on.

127 Temporary cards July 1,  
1934.

**Circulation**  
Adult—71,157.  
Juvenile—12,327. Total 83,-  
588.89.

Balance on hand to cover ex-  
penses for next six months, July  
to Dec., 1934, \$3,244.89. Total,  
\$10,649.96.

**Petty Cash**  
Balance on hand July 1, 1933,  
\$251.63.

Fines, \$520.39; rentals, 236.95;  
deposits, \$394.00; fees, \$111.00;  
lost books, \$46.44; gifts, \$3.00;  
\$3.78; C. L. A. dues from staff,  
\$3.00; books bought by staff,  
\$11.70; returned by Cal. if. Div.  
of Mines, \$2.00. Total, \$1,-  
588.89.

Bank balance, \$335.67.  
Cash balance, \$21.27.  
Total, \$356.94.

Add savings (Fines paid)  
\$570.96.

Total, \$927.90.

Refunds, \$227.75; county fines,  
\$34.56; shelving, \$123.41; mend-  
ing, \$52.81; supplies, \$78.57;  
upkeep, \$3.20; postage, \$27.06;  
P. O. box, \$4.00; express, \$3.29;  
phones, 10c; garden \$10.29;  
State Lib. book lost, \$5.50; Supt.  
of Documents, \$5.00; pamphlets,  
\$7.15; books, \$46.72; Dict. of  
Amer. Biog., \$60.00; magazines,  
\$26.78; check taxes, \$4.80. To-  
tal, \$720.96.

Transferred to city, \$400.00.  
Fees put in savings, \$111.00.  
Bal. July 1, 1934, \$356.94.  
Total, \$1,588.89.

**No One-Tusk Elephants**  
There is no species of elephant  
with only one tusk. In some in-  
stances one of the tusks may be  
broken in combat or in uprooting  
trees; very often one tusk is smaller  
and thinner than the other. The  
narwhal, a whale sometimes called  
the "sea unicorn," as a rule has one  
long spiral tusk, though occasional  
specimens have two tusks.

## ELECTRICAL KITCHEN JOY TO HOUSEWIFE

An all-electrically equipped  
household is one in which the  
magic of electricity can be called  
upon to solve every phase of the  
housekeeping problem.

A most important feature of  
the general equipment is a water-  
heating device. In summer no  
less than in winter a plentiful  
supply of hot water at an in-  
stant's notice helps more than  
anything else to eliminate drudg-  
ery from housework.

The electric water-heater  
gives a 24-hour service. It en-  
ables the housewife to have hot  
water of a predetermined temper-  
ature at any hour of the day or  
night. The modern heater is  
automatically operated and con-  
trolled. It heats the water to the  
proper temperature, then auto-  
matically shuts off the supply of  
electric current. When some  
more hotwater is needed, the elec-

tricity is automatically turned on  
again.

It's all simple. Every house-  
hold task, from dish washing to  
housecleaning, is shortened, made  
easier, by this constantly avail-  
able hot water supply. Every

gratifying little luxury of per-  
sonal care and cleanliness can be  
enjoyed without the possibility of  
disappointment, without even the  
annoyance of waiting.

## "COUNSELLOR-AT-LAW"

POSTPONED FOR WEEK

"Counselor-at-Law" Elmer Rice's brilliant comedy-drama, scheduled for this week-end at the Playhouse, will not open until next week, Friday and Saturday, July 13th and 14th. Illness in the family of a leading player necessitating a hurried trip South, together with several recent changes in the cast, one of the largest ever assembled in Carmel, have brought about this decision on the part of the director and his producing staff. "The Golden Bough Players," says Edward Kuster, general director of the production, "enjoy the reputation of never having offered a play to the public until completely ready to the last detail. Even so, this is only the third time in ten years that we have postponed an opening. When 'Counselor-at-Law' opens on the 13th our patrons may be assured of a smooth and competent performance of this fine play."

Tickets will be on sale every afternoon opposite the post office.

## "GOING SOME" IS

REAL ENTERTAINMENT

The farce-comedy "Going Some" opens Wednesday at the Forest Theatre, to be repeated tonight, Friday and Saturday, and the trees will echo to the laughter of the well-filled auditorium. Authors Rex Beach and Paul Armstrong created a mirth-provoker in 1910 that Director Donald W. Lee, of Hollywood, is playing in that period, and it has gained strength with the passage of years.

A collegiate-rangeland combination of sprinters and cowboys, of rival ranches and a prize photograph that is waged along with all spare cash on a footrace, it had everything needed to make a full evening of pleasure.

The United Forest Theatre society and the Carmel Community Players furnish a cast of excellent talent that has Rosamond Marble, Bill Staniford, William Dave Cooke, William Shepard, Opal Jefferson, Charlotte Lawrence, David Matske, John Nye, Abbie Lou Bosworth, Frank Andrews, Evert Sholund, Phillip Walker, Milton Latham, Tom Matthews, A. C. Lafrenz and Carl von Salza.

The Carmel Valley Singing Cowboys and Cowgirls are a feature of the evening's entertainment, and they arrive on horseback and not only are in the play itself but do specialties between acts. They include Bob Nix, Joe Algrava, Tommy Schofield, Lynn Hodges, Rex Brown, Clifford Hicks, Hobart Morris, Tex Raibourne, Ray Walls, George Hallock, and N. C. Winters.

The cowgirls will be Helen Clavin, Frances Van Fleet, Gertrude Payne, Mary Walls and Willmina Deems.

It has been long since the veteran Forest theatre has had such outright good fun built for only one purpose—entertainment—in days that have enough seriousness without seeing it on stage as well. Good advance sale makes it advisable to secure seats at once, and this may be done at Staniford's Drug Store. Prices are \$1., 75c and 50c. Newcomers are advised to take blankets for the outdoor theatre has been known to be chilly but oldtimers are such hardy folk that they will only need to applaud to keep warm.

## TWO HUNDRED ENJOY

FOREST THEATRE PARTY

About two hundred people enjoyed the party given Sunday afternoon by the Forest Theatre group at the theater, when excellent music was rendered by the Presidio band, interesting speeches made and delicious refreshments served.

Miss Rachel Hiffer presented Herbert Heron who among other things of interest said:

"The Forest Theatre has existed for a quarter of a century because it is a community institution and such a large number of people have been interested in it. At one time we counted up the names of those who had taken part in the productions and found that there were more than 3,000 actors, playwrights, scenarists, etc."

Eighty-eight plays have been produced ranging from stark

tragedy to farce. Of the 88, 36 were written by Carmelites and nine by other California writers, the theatre thus playing an important part in the history of the drama in California.

Glowing tribute was paid to Perry Newberry by Mr. Heron for his loyalty and devotion to the Forest theatre, Mr. Newberry having been a member of the organization since its second year and having written, acted and directed its early history. "Mr. Newberry wrote our first farce, 'Burn It,' the speaker stated and he also made the drawings for some of our posters."

It is probable the party will be made an annual affair.

## EDWARD WESTON HAS

EXHIBIT AT GALLERY

Another interesting exhibition of his camera work is being offered by Edward Weston at the Denny-Watrous gallery this week and continuing through next week.

The pictures show a diversity of subjects, some being taken in New Mexico showing the ovens, the dwellings and the clouds in New Mexico, some of the painted desert in Arizona, some

scenes about the artists' colony at Taos, N. M., and of course many California scenes.

Mr. Weston has surpassed any of his previous work with this showing and those who are interested in art should not fail to call at the gallery within the next two weeks.

## CHRISTIAN SCIENCE TO BE TOPIC OF LECTURE

"Its Assurance to a Troubled World" will be the subject of the free Christian Science lecture to be given as advertised at the Sunset auditorium next Sunday afternoon, July 8.

Peter V. Ross, member of the board of Lectureship, will give the address, which promises to be a discourse well worth hearing.

## FRIDAY HOTTEST DAY IN PENINSULA HISTORY

Phew! And was it hot? Unused to heat, Carmelites stayed quietly in doors most of the day Friday or spent the time on the beach. Thermometers registered 95.

Relief was brought Saturday however, and by Sunday the delightfully cool fog enveloped the city with its friendly mantle and visitors from the valley realized they were really on the coast.

## FORMER CARMEL TEACHER MARRIED LAST WEEK

A marriage of interest to many was that of Miss Jean Wallace and Dr. David Spence of the Country Club which took place last week in Dr. Spence's home.

The ceremony was performed in the presence of only a few intimate friends and relatives by the bride's father, of Los Angeles.

The newlyweds left for a short honeymoon trip after which they will be at home in the Country Club district.

The groom has resided here for the past six years but maintains a research laboratory in Salinas.

The bride taught physical education in Sunset School for two years and won hosts of friends.

## CARMEL SUN IS OUT

AHEAD OF SCHEDULE

On account of requests from merchants, Carmel Sun is out early this week to give the news from the stores to the summer visitors who would like to know where they may get the things they want here. News of varied types may be found in this issue—things concerning art for those interested in art; theatre news for those who like drama; news of the business world for those who like that kind; municipal news for everyone who is interested in Carmel, and so on and so on. The editors hope you enjoy the Sun this week and every week.

## CARMEL FORTUNATE IN

NO PARALYSIS CASES

With infantile paralysis being epidemic more or less in other coast cities, Carmel feels particularly fortunate in having had no cases so far.

It is very important, however, that parents watch their children closely and take them to their physician if they show any signs of illness. It would be well to take no chances, whatever, even though one may feel they know the symptoms of the dread disease.

## BECHDOLT IS NAMED

HEAD OF COUNTY SERA

Under Frederick R. Bechdolt, well known author of Carmel recently appointed head of SERA in Monterey county, relief work is being hurried.

Monterey county's funds will be between \$7,000 and \$12,000 and Mr. Bechdolt left immediately for San Francisco after his appointment to get approval of his program.

Mr. Bechdolt will have ten assistants to aid him on checking up on applicants for relief work to see that the money goes where it is needed most.

Mrs. Myrtle Stoddard and daughter, Miss Shirley, and Miss Glenna Peck are enjoying an outing in Yosemite this week.

## DON'T USE BAD TIRES ON FOURTH OF JULY

"Don't celebrate the Fourth of July with tire blowouts. They're more dangerous than firecrackers." That warning was issued to motorists by A. C. Grimshaw local Firestone dealer of Carmel.

Many Carmel motorists have been getting by on thin smooth tires for the past few months, he declared.

However, with July heat making roads blistering hot, thin tires are very likely to let go, and when they do, it's a serious question of where will the car land—in a ditch, thrown up against a tree, or if lucky the motorist may be able to hold the machine on the road. Mr. Grimshaw urged car owners to guard against mishaps by equipping their cars with new tires. "It is my earnest belief that more people are injured on July Fourth trips by tire blowouts than by firecrackers," he declared.

Now is the time of the year to equip for safety, because Raw Rubber has advanced in price 442 per cent and raw cotton 190 per cent and yet tire prices are at a very low level and must be advanced shortly according to Mr. Grimshaw.

Another added incentive for buying tires now is that Grimshaw's Mid-Summer tire sale is now on in full progress. Their racks are chuck full of tire bargains.

## DRIVER GOES TO SLEEP

RUNS CAR INTO DITCH

William Cassiol of Carmel Valley will probably stop and take a nap after this when he gets sleepy while driving. While driving on the Monterey-Salinas highway he ran into a ditch about three miles from Monterey, the result, officers say, of falling to sleep at the wheel.

Miss Luigi Fillari and Miss Reese of San Francisco arrived in Carmel this week to spend their vacations here. Miss Fillari is quite well known here having visited here before.
